Eld F M Tindler has returned from Ghent, Ky., where he just closed a revival, during which there were 24 additions to the church.

Jno E Pounds, the noted evangelist of Indianapolis, will assist in a protracted meeting to begin at the Christian church about Oct 1st. A noted singer will also be engaged for the meeting.

Eld Tindler will be away again next Sunday, but the pulpit at the Christian church will be filled by some other minister, possibly Prof McGarvey, who will preach both morning and evening and at New Antioch in the afternoon.

Garrard County Home-Coming.

Many of our business men propose having a home coming for Garrard county people one day during the Louisville gathering. They propose having an old fashioned barbecue and burgoon, at which all may enjoy themselves as of old. We suggest that some organization be effected at once, or it will be too late.

County Sunday School Convention.

The Garrard County Sunday School Convention will meet in Lancaster next Saturday morning, and a large number of delegates will be present. The session will open at 9:30 A. M., in the Baptist church. At noon, dinner will be served to delegates and visitors. The public is cordially invited to attend the sessions.

A Fine Sermon.

The baccalaureate sermon delivered at the Methodist church Sunday night by Dr C F Evans, of Carlisle, evinced a high degree of learning and culture on the part of the speaker and was well and favorably received by the large audience. Prof Mannix is quite successful in all his appointments, and the people of Lancaster owe him a debt of gratitude for securing the services of such an able man.

Prosperity.

The closing exercises of Lancaster Graded School, under the management of Prof Mannix and his competent assistants, reminds us of the fact that we have one of the best schools in Kentucky. We also have some of the best lawyers and doctors in the county. We have four churches with large membership. Every line of business is represented by enterprising merchants. Our roads are splendid and our soil is very fertile. These and many other advantages are inviting immigration and property is bringing good prices.

Too Dry.

It is not only true that the town is so dry that liquor cannot be bought for love or money, but the want of rain has been very hurtful to several crops. Meadows, hemp and oats have been injured, but they may come out yet, as Garrard seldom fails to have abundant crops. We are all interested in the welfare of the farmer as all wealth comes out of the ground, in mining, lumber or agricultural interests, and the people only do when the farmer does well. Abundant crops insure low prices.

The Great Irish Orator.

Mr M J Fanning, the great Irish orator, will be in Lancaster May 29, at the court house, 7:30 p. m. Mr Fanning is an orator of national fame, and has accomplished a world of good for the cause of temperance. No admission fee will be charged—everybody cordially invited. You should hear this great orator, and his talks are different from the usual cut-and-dried temperance lecture, and, while you will be given a good talk on that all-important subject, yet there is so much wit injected that you will enjoy every word. Remember the date May 29.

Commencement Exercises.

The Christian church was crowded Tuesday evening by friends and relatives of the graduating class, of Lancaster High School, who represented the high standard of culture and learning hitherto maintained by Garrard county, in a highly acceptable manner, reflecting great credit upon their families and the community generally. They certainly commence life with superior advantages and will be bright stars in the galaxy of the social world. The graduating class is as follows: Misses Letty Mae McRoberts, Edna B Mason, Mary H Doty, Sophronia J Fox, Norma E Elmore, Messrs Geo M Hendrickson, L Thurston West, Horace L Walker, Logan R Smith, Shirley Hudson, Holiday Clay Kauffman, W Bradley Johnston, Harry D Elmore, Bascom C Ford, John W Dunn. On account of the large number in class; only the following took part in the exercises: Miss Letty Mae McRoberts, subject, "The American Ideal;" Miss Edna B Mason, "Lost Moments, Lost Life;" Thurston West, "Modern Knighthood;" Geo Hendrickson, "Education and Civic Prosperity." The diplomas were delivered by Judge Lyman Chauley, President K U law department, Lexington, and his address was a literary gem. The music was furnished by Mr W B West, organist, Mr Jno M Farra and Mr John Bay, and was greatly enjoyed.

Dr McCormack's Lecture.

Those who failed to hear Dr McCormack at the Christian Church Wednesday evening missed a whole-some treat. His subject was "The Relation of the Medical Profession to the Public." He was introduced to a moderately large audience by Mr W L Williams in a graceful manner. The audience gave him their undivided attention from beginning to end.

The doctor has been delivering lectures over the United States in the interest of the American Medical Association undertaking to elevate the standard of the profession and improve the public health. His vast experience as Secty of the State Board of Health for 25 years, his acquaintance with quacks and quackery eminently qualify him to speak words of wisdom. The doctor spoke in an impressive manner easily understood by old and young, all of whom were pleased with his eloquence and wit. Many facts were stated to them that should make them appreciate more fully the dignity and honor of the profession, whose members "are with them at their birth, attend them during years of adversity and prosperity and are with them at their death." Such an exposition of the doctor should be of service to the profession and the public and should bring about a better understanding and better pay for the arduous labors of the often over-worked physician.

After hearing such an address every one should have more appreciation, should have more generosity, more charity, more respect for their family physician.

The Ladies Home Journal and Colliers Weekly were complimented by the doctor for the stand taken with reference to patent medicines, and warned the public as to the many dangers attending the use of nostrums whose contents are kept secret. Many dangers lurk in so-called baby soothers, all of which contain morphine or opium in some form. He told of ministers of the gospel disgracing their profession and bringing ruin to themselves by using and recommending patent medicines composed largely of mean whiskey. Many ministers have become chronic alcoholics without ever suspecting the cause to be in the secret nostrums advertised in religious journals and recommended by leading ministers.

The people of our community owe a debt of gratitude to Dr McCormack for his exposure of cheap cut rate doctors, prescribing druggists and self appointed ignoramuses who defraud the people and do irreparable damage to the public and to the medical profession. The doctors appreciate the good work being done by Dr McCormack in bringing medical matters before the public in a true light. God speed him in the good work until doctors shall receive their just dues and the public be so educated as to be able to prevent the spread of all contagious and infectious diseases. The doctor will return sometime in the future to give another lecture when he will be greeted by an immense audience.

Employees in the north wing of the Capitol witnessed a novel scene in the Senate ladies gallery Friday of the rate bill. A few minutes before 10 o'clock a well-dressed, elderly woman entered the gallery's swinging doors and made her way to the front seats. Drawing from her capacious shopping bag a collection of silks and laces, she placidly threaded a needle and proceeded the making of a waist. Even after the galleries were filled and the Senators had begun work she plied her needle. Not until the routine business was over and the rate bill was trotted out did she put her sewing aside. The interest now naturally centers around the heated controversy in which the President finds himself with Senators Tillman and Bally and former Senator Chandler since the rate bill itself is settled successfully. President Roosevelt has announced himself as pleased with the measure, and so have radicals and conservatives alike. Everybody, indeed, is rejoicing that a practicable and finished piece of legislation has been accomplished, instead of a tentative measure which would still leave shippers and carriers up in the air.

Died in California.

J C Jennings, one of the little twin boys of Mr and Mrs R L Jennings of Los Angeles Cal., fell asleep in Jesus Monday evening May 7th. The rosebud was given into the keeping of the earthly parents only eight short weeks and then called to bloom in that garden where no chill winds blight. No one knows the heartaches of the father and mother but they are comforted that He said, "suffer the little ones to come unto me, for of such is the kingdom of Heaven."

Retrospective.

Backward, turn backward, oh time in your flight; feed me on gruel again just for tonight. I am so weary of sole-leather steak, petrified biscuit and vulcanized cake; oysters that sleep in watery bath, and butter as strong as Goliath of Gath. Weary of paying for what I can't eat, chewing up rubber and calling it meat. Backward, turn backward, how weary I am; give me a swipe at grandmother's jam. Let me drink milk that hasn't been skimmed; let me eat butter whose whiskers have been trimmed; let me once more have an old-fashioned pie, then I'll be ready to curl up and die.

Exchange.

Swine Tuberculosis.

Volumes might be said and written on swine diseases, but there is one ailment that deserves particular mention at this time, and that is swine tuberculosis. In most cases this plague is not discovered until the carcasses come under government inspection, and then the infected hogs have to be destroyed. Of course, this throws the loss on the buyer, but many leading buyers say that such losses will soon be thrown back on the seller. This disease is said to be caused many times by feeding to hogs the dead bodies of cows and horses that are already infected with tuberculosis. The dangers from swine tuberculosis can, no doubt, be greatly lessened if breeders and feeders will take the matter in hand at once. It is simply another case where the proper sanitary methods become absolutely necessary in profitable hog raising.—Ex.

What it Costs to Raise Tobacco.

An exchange thinks there is more money for the farmer in wheat at \$1 per bushel than in tobacco at \$200 per acre, considering the labor and drain on the land and the difference in the cost and methods of producing the two crops. Wheat it is pointed out is easily and quickly put in the ground, and then there is no more labor or trouble with the crop until the harvest and threshing season, which with modern methods is a light and comparatively cheap job. In contrast is the month of hard labor and drudgery and exposure to all sorts of weather and heavy outlay for help and hand hire, and the quick exhaustion of the soil in the production of tobacco. After summing up the expenses and receipts of a heavy yielding tobacco crop the profit is placed at not more than \$30 per acre. That's about the correct figure, and when you read of such big money being made in growing tobacco, just set it down as coming from sources not posted as to the cost in money, soil, labor and back grease of a tobacco crop.

Sciatica Cured After Twenty Years of Torture.

For more than twenty years Mr J B Massey, of 3322 Clinton St., Minneapolis, Minn., was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlains Pain Balm. One application of that liniment relieved the pain and made sleep and rest possible, and less than one bottle effected a permanent cure. If troubled with sciatica or rheumatism why not try a 25 cent bottle of Pain Balm and see for yourself how quickly it relieves the pain? For sale by R. E. GOOD for OLD and YOUNG

August Flower keeps the children healthy and strong—Pulls out vigor and frolic the whole day long. So when Mamma needs more they rush off in high glee. And shout to the druggist: "Please give it to me!"

Inability to get up brisk and fresh in the morning, lack of appetite, pallor, muddy complexion and poor spirits—these all indicate a disordered stomach and bad digestion—in adults and children, too. They also indicate the urgent need of taking Green's August Flower regularly for a few days.

It's a reliable old remedy for all stomach troubles, never fails to cure indigestion, dyspepsia and chronic constipation, and is a natural tonic for body and mind. Two sizes, 25c and 75c. All druggists.

Eight Hours Not Enough.

In the light of the present agitation for an eight hour workday, it is interesting to read the statement of Edison, the famous inventor, that Americans eat too much, sleep too long and do not work hard enough for their own good. Mr Edison began as a poor telegraph operator. He never asked a union how many hours he might work. Neither does any other man who makes anything out of himself.

There is not a successful business man, and certainly not a successful farmer, anywhere, who can thrive by working eight hours a day. The employers of the very men who are striking, work ten or twelve hours a day to devise plans whereby to keep the business off of the rocks and to increase the volume of jobs for the employees. It takes more than eight hours, except for a genius, to accomplish success in this world of competition, and even when we get close to the genius itself we find that genius is defined as an infinite capacity of hard work.

There is work which is drudgery, but usually it is a mere drudge who is doing it. With a man of right spirit, in good health, it is almost impossible to overwork. Millions of people overwork—and it is not always the wage earner who is the victim of the overwork ailment—but few, even amongst strenuous Americans, overwork. Edison is right.

How Japs Keep Strong

The Central Record Readers Can Learn Something of Value from This

Such a thing as a weakening is hardly known in Japan. The wonderful endurance of the Japanese soldiers and sailors in the recent war has been the marvel of all nations. Both men and women are well, happy and strong.

The reason for this, so careful investigators tell us, is that the Japanese from childhood up know how to keep well through care of the digestive system. If they have trouble with indigestion, heartburn, wind on the stomach, loss of appetite, sleeplessness, headaches, rheumatic pains, back-aches, or any of the other trouble caused by a weak stomach, they treat themselves with some of the principal remedies that compose Mio-na, a stomach remedy that has already made a large sale in Lancaster at R E McRoberts.

So uniformly successful has the remedy been in curing all stomach troubles where it is used in accordance with the simple directions given with each box, that R E McRoberts gives a signed guarantee with every 50 cent package to refund the money if Mio-na fails to benefit.

He take all the risk. If you have any stomach weakness, are nervous or fear that some articles of food will cause trouble and indigestion, here's the opportunity to get well without risking a cent. Those who use Mio-na are able to eat anything digestible without fear of ill results.

The Editor.

Editing a newspaper is a nice thing. If we publish jokes people say we are rattle brained. If we don't do we are fossils. If we publish original matter they say we don't give them enough selections. They say we are too lazy to write. If we don't go to church we are heathens. If we go we are hypocrites. If we remain in the office, we ought to get out and hustle; if we go out, then we are not tending to business. If we wear good clothes they say we have a pull. Now what are we to do? Just as likely as not some one will say we stole this from an ex change. So we did.—Richmond Climax.

Fortunate Missourians.

"When I was a druggist, at Livonia, Mo.," writes T. J. Dwyer, now of Graysville, Mo., "three of my customers were permanently cured of consumption by Dr. King's New Discovery, and are well and strong to day. One was trying to sell his property and move to Arizona, but after using Dr. King's New Discovery a short time he found it unnecessary to do so. I regard Dr. King's New Discovery as the most wonderful medicine in existence." Surest Cough and Cold cure and Throat and Lung healer. Guaranteed by R. E. McRoberts Druggist. 50c and \$1. A big corn deal was recently made in Henderson county, 150,000 bushels of corn was bought at 50 cts per bushel by A. Wallis & Co., of Henderson. Six or seven parties disposed of their entire crops.

Mrs. John Goodman, of Todd county, has this season sold 27 eggs laid by one of her prize hens, and 26 laid by another of the famous fowls, at one dollar each. Besides these her sales of other turkey eggs aggregate over \$200 for the season.

W. D. McIntyre, of Millersburg, sold to Roxie Davis 17 cattle averaging 1,120 pounds at 5 cts per pound, and also 13 averaging 1,010 pounds to Ben Woodard, Jr., at same price. Mr. McIntyre was in Paris Friday and received about 4,500 pounds of wool from farmers around Paris, which cost from 25 to 30 cents per pound.

The American Tobacco Company closed its purchase of 1905 burley tobacco at Mt. Sterling. J. N. Hise, the buyer, purchased about 4,200,000 pounds, nearly all of which was raised in Montgomery county. The price paid averaged eight cents, making a total of \$330,000 which was paid out to the farmers by the American Tobacco Company alone. Local buyers secured 989,336 pounds at an average price of nine cents, making the grand total for the 1905 crop in that county over \$410,000.

Talking on the future of the hog market Charles Goepper, a prominent Chicago buyer, said: "Last fall I was a bear in common with hog buyers all over the country. We were wrong simply because we could not detect an abnormal demand. I do not look for material lower price during the summer. We are entering the summer packing season with every condition favoring the grower, but my advice to country speculators is to avoid bulling the market. Contracting hogs for summer delivery at 6 cents is dangerous. While prices have ruled high all winter speculators have not had a profitable season and practically all the money has gone to the grower. I look for a normal summer run of hogs and it is up to the consumer to maintain prices. A factor in summer marketing will be the fall farrowed pig and after June we may look for that crop.

Indianapolis News:—The marriage of Miss Nelle Anderson and J. E. Voris, of Lexington, Ky., took place this afternoon at the home of the bride's sister, Mrs. Mary Harris. Only a few friends were present for the ceremony which was performed by the Rev. Frank C. Hood, of the East Washington-street Presbyterian church. The bride wore her traveling costume of gray cloth, with hat to match. Mr. and Mrs. Voris will leave this evening for a bridal trip and will be at home in Lexington after June 1. The bride is the daughter of Mr. and Mrs. Alex Anderson, one of the oldest and most highly respected families in Garrard county. She left Lancaster when quite small to reside with her sister, Mrs. Harris.

Invitations have been issued to the marriage of Miss Theo. Hemphill and Dr. A. Jackson McNeese, the wedding to take place at the home of the bride's parents, Judge and Mrs. J. C. Hemphill, in this city, Saturday afternoon, June 2nd, at two o'clock. After the ceremony, the couple will take the afternoon train for a trip to the Eastern cities, remaining for two weeks before returning to Lancaster. Miss Hemphill is one of the most attractive and popular girls in Lancaster's social set, beloved by old and young alike for her sweet manners and captivating disposition. For the past year she has had charge of the music class at Madison Institute, Richmond. Dr. McNeese is a young physician of ability and has a bright future. He located in Lancaster some time since, and built up a good practice. Recently he decided to locate in Bowling Green, and has been in that city since leaving Lancaster.

Underwood.

Mrs. Eliza Underwood Nevius died at her home at Parksville, Saturday morning May 12th at eight o'clock after a short illness of that dreadful disease, tuberculosis. She was the youngest daughter of James Underwood deceased and a sister of R. L. Underwood of this city. She was married three years ago to James Nevius of Parksville. She was a consistent member of the Baptist church and was ready when final summons came. Angels hovered over her dying form and she told her loved ones they were singing "Jesus, Lover of my Soul." She said the Lord had called her and though it was hard to leave her little ones, she was resigned and bade all meet her in heaven. She leaves a husband, two small children, a mother and loving brothers and sisters to mourn her loss. Weep not dear ones for "Blessed are the dead, who die in the Lord."

"Thou'rt gone, the abyss of heaven hath swallowed up thy form, yet, on my heart, deeply hath sunk the lesson thou hast given, and shall not soon depart." Resquet in Pace. A loved one.

Not as Rich as Rockefeller.

If you had all the wealth of Rockefeller, the Standard Oil magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician can not prescribe a better preparation for colic and diarrhoea, both for children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails, and when reduced with water and sweetened is pleasant to take. Every family should be supplied with it. Sold by R. E. McRoberts the reliable druggist at Lancaster.

NABOTH, JR.

Naboth, Jr. is a rich red bay, six years old and full 16 hands high, weighs 1225 pounds, and is a horse of wonderful beauty, having a long, rangy neck and carrying a fine tail. He is a perfect gelded horse with superb all round action and like all sons of old Naboth he has great natural speed in harness and a greater racing horse can not be found in the State of Kentucky. I have been a dealer in fancy horses for ten years, furnishing them for all the markets in this country and I am anxious to encourage the breeders of horses to continue to raise better ones. As is generally known there is a scarcity of good horses, and those suitable for the Eastern market bring fancy prices. If the breeders would raise "Naboths" they would make the mares to the right kind of sire. Naboth, Jr., beyond all doubt, is a horse that will produce that type of horses that the market demands, and for which the public is willing to pay high prices. I purchased this great young stallion at a fancy price because he has size, style, action, beauty and breeding.

If like hegets like you can get the right kind of horses by breeding to Naboth, Jr. You will note that this Stallion has the blood of old Naboth, Hambleton 10, Old Messenger Chief, Red Wilkes, George Wilkes, Manbrino Chief, Pilot Jr and Harry Clay.

PEDIGREE.
By Naboth, 10016 2:19 3/4. He by Walsingham, 2166, sire of Latitude 2:19 3/4 and several others in the list. Walsingham by George Wilkes.
Old Naboth's first dam, Tinsel by Messenger Durock 100, son of Hambletonian, Second dam, Bess, sister to James Howell, Jr by Hambletonian. Third dam, Jessie Sayre by Harry Clay 45. Fourth dam, by Liberty, son of Lance, by American Eclipse.
Naboth, Jr.'s first dam by Messenger Chief, Jr by Old Messenger Chief. Second dam by Cris Davis, by Red Wilkes, Third dam Thoroughbred.
Naboth, Jr. will be kept during the season of 1906 at my stable in Lancaster, Ky., and will be permitted to serve mares at a distance at reasonable prices but no responsibility assumed for accidents or escapes of stock committed to my care.

W. B. BURTON, Lancaster.
